Did you know...?

Trees can live for thousands of years. The oldest tree in the world is over 5,000 years old!

You can find out how old a tree is by counting the rings inside its trunk!

Not only do the roots of a tree help it stand up straight, they're also essential for water and nutrients that help the tree stay alive!

The tallest trees in the world are Redwoods, commonly found in North America.

Acorns are the fruit of oak trees.

Trees cover around 31% of the Earth's surface.

There are over 60,000 species of tree in the world.

The most common tree in the UK is the English Oak Tree.

Legend: V - vegetarian, VG - vegan, GF - gluten free

Please note: We follow good hygiene practices in our kitchens but due to the presence of allergenic ingredients in some products, there is a small possibility that trace allergens may be found in any item. We advise you to speak to a member of staff if you have any food allergies or intolerances. Ingredients containing allergens which are deep fried in our kitchens will use the same fryers as ingredients which do not contain allergens. There may be a risk of cross-contamination.
